Panrui Ni, PhD

Graduate School of Mathematical Sciences, The University of Tokyo
Office: 402, 3-8-1 Komaba Meguro-ku Tokyo 153-8914, Japan
panruini@gmail.com 07037751910
https://panrui-ni.github.io/ Birth: 16/07/1996

Research Interests

- Hamiltonian Dynamics, Hamilton-Jacobi Equations, Aubry-Mather Theory, Weak KAM Theory.

Academic Position

2024 – present **Visiting researcher, Graduate School of Mathematical Sciences, The University of Tokyo, Tokyo, Japan**.
Research Project: *Homogenziation theory for Hamilton-Jacobi equations*.
Mentor: Hiroyoshi Mitake

2023 – 2024 **Postdoc Faculty, Sorbonne Université, CNRS, IMJ-PRG, Paris, France**.
Research Project: *Discrete and continuous weak KAM theory*.
Mentor: Maxime Zavidovique

Education

2018 – 2023 **PhD, Fudan University, Shanghai, China** Mathematics.
Thesis title: *Viscosity solutions of contact-type Hamilton-Jacobi equations*.
Advisor: Jun Yan

2014 – 2018 **Bachelor, Southeast University, Nanjing, China** Engineering Mechanics.
Thesis title: *Variational principle for contact Hamiltonian systems and its applications*.
Advisor: Changwen Mi

Research Publications

Journal Articles

1. **Panrui Ni**, "Multiple asymptotic behaviors of solutions in the generalized vanishing discount problem," *Proceedings of the American Mathematical Society*, vol. 151, pp. 5239–5250, 2023, URL: https://doi.org/10.1090/proc/16420.

Preprints

1. **Panrui Ni** and L. Wang, "On Mather's Lipschitz graph theorem of the Aubry set for contact Hamiltonian systems," submitted.

2. **Panrui Ni** and M. Zavidovique, "Nonlinear and degenerate discounted approximation in discrete weak KAM theory." URL: https://arxiv.org/abs/2403.04563.

Skills

Languages	Chinese (Native), English (Fluent).
Software	Mathematica & Python

Miscellaneous Experience

Scholarships and Grants

2023	Award of Outstanding Graduate of Shanghai
2022	National Natural Science Foundation of China, **participant**, Grant No. 12171096.

Miscellaneous Experience (continued)

2021 Qinghua Scholarship at School of Mathematical Sciences, Fudan University

2020 Academic Scholarships for PhD Degree Students

2019 National Scholarship & Outstanding Student of Fudan University

Conference Activities

2024.1 ANR meeting, École Normale Supérieure de Lyon, **Invited speaker**.
Title: *On discrete nonlinear vanishing discount problem.*

2023.6 PDE seminar, University of Tokyo, **Invited speaker**.
Title: *Hamilton-Jacobi equations depending Lipschitz continuously on the unknown function.*

2022.7 Conference on Differential Equations and Dynamical Systems, Beijing Institue of Technology, **Invited speaker**.
Title: *A nonlinear semigroup approach to a class of nonmonotone Hamilton-Jacobi equations.*

Teaching Activities

2021 Teaching assistant in Fudan University, Course: *Calculus.*

2020 Teaching assistant in Fudan University, Course: *Classical Mechanics.*

2019 Teaching assistant in Fudan University, Course: *Classical Mechanics.*
